OF HEALTH AND WELFARE

DIVISION OF
ENVIRONMENTAL QUALITY

1410 North Hilton, Boise, ID 83706-1255, (208) 334-0502

Philip E. Batt, Governor

March 31, 1997

Philip Millam, Director
U.S. Environmental Protection Agency/Region 10
1200 Sixth Avenue
Seattle, Washington 98101

Dear Mr. Millam:

Attached is an updated version of Idaho's 1996 §303(d) report of water quality limited water bodies. This list is being submitted for your review and approval as a replacement to the §303(d) list submitted on October 31, 1996. In developing a Geographic Information System (GIS) coverage and preparing a TMDL schedule for the court, numerous technical errors were revealed. Since October 1996, technical corrections have been made that fall into the general categories listed below:

- corrected waterbody names according to Idaho's Geographic Names Information System
- corrected hydrologic catalogue unit numbers, when inaccurate or missing
- defined ambiguous boundaries; e.g., replaced Boise National Forest with Headwaters to Boise River, South Fork
- deleted duplicate segments identified through GIS spatial analysis

These technical changes are not substantive. Please review and approve the attached list in place of Attachment D of the DEQ's October 1996 submittal package.

If you have any questions concerning the 1996 §303(d) list or summary, please contact Michael McIntyre of my staff at (208) 373-0502.

Sincerely,

Larry L. Koenig

Larry L. Koenig, Assistant Administrator
Water Quality and Remediation Division

LLR/MRE/pah

cc: Michael McIntyre, DEQ-Central Office
Kevin J. Beaton, Deputy Attorney General

BEAR RIVER BASIN

WATERBODY NAME	PNRS ID	CATALOGUE UNIT #	BOUNDARIES	POLLUTANT/PARAMETER	PRIORITY	COMMENTS
