About DEQ's Coeur d'Alene Region: Pend Oreille River and Tributaries (to Pend Oreille Lake and River) Watershed Advisory Group (WAG)

Content on this page is provided for informational purposes while the Pend Oreille River and Tributaries Watershed Advisory Group (WAG) and DEQ work to develop a water quality improvement plan or "Total Maximum Daily Loads" (TMDLs) for water bodies in the watershed found to be not fully supporting beneficial uses.

Note: All of these documents are considered draft and are subject to change. The goal of providing these documents at WAG meetings and on this web page is to ensure citizens have the opportunity to provide input as the documents are developed.
